

# Confidence starts here.

It's been said that beauty is skin deep, but in the capable hands of a skilled plastic surgeon, such as Dr. Vincent DiNick, a patient can shed years and enjoy a renewed sense of both outer beauty and inner beauty as well. The outer beauty may come in the form of fewer facial wrinkles, a tummy tuck or fuller lips, while the inner beauty often manifests itself in a restored sense of pride and self-confidence. It's no wonder that Dr. DiNick himself exudes enthusiasm when he describes the wide variety of procedures he performs, on a daily basis, in his own ultra-modern surgical facility in Novi, Michigan.

Typically, when someone comes in for a consultation, he or she is expecting a 2-minute exam and a procedure scheduled. That isn't what they will get coming to Brookside. Dr. DiNick does every consultation himself. He takes the time to ask the right questions and really listen to the expectations of every patient. In some cases, a woman comes in asking for a procedure or surgery that her best friend or sister had. Dr. DiNick takes the time to educate the patient on what is best for her, as an individual. She walks out of the office, comfortable and confident that she has chosen the right solutions for her own needs.

As Dr. DiNick explains, "Brookside offers the combination of a comfortable, inviting atmosphere and a facility with a fully-accredited operating room, just like those found in hospitals." In this environment, both surgical and non-surgical changes are performed. "If an overnight stay is required," the doctor explains, "we are one of the few facilities able to accommodate such a visit." Patients come from all over Michigan, Ohio and even Canada for procedures such as body re-contouring, neck lifts, breast reductions and augmentations, and of course, thigh lifts, tummy tucks, liposuction and more.

Everyone should be happy when they look in the mirror. The saying may be, "Beauty is in the eye of the beholder," but at Brookside, we help every woman find happiness for the person that means the most...herself.
